

Upper School Options Preference Form 2017

- ❑ Remember you are looking to create a broad and balanced curriculum which is appropriate to your abilities and interests. It is possible that you may want to specialise but beware of cutting off pathways for post-16 education.
- ❑ In addition to the core areas of experience [currently English language and literature, mathematics, sciences, and a modern foreign language] you should consider a curriculum which contains experience of the humanities [classical civilisation, geography, history and RE], an aesthetic subject [art and design and music] and a design technology subject [food and nutrition, product design and systems and control technology].
- ❑ Please note that you should only choose one design technology subject [i.e. food and nutrition or product design or systems and control technology].

Full name Form
