

Re-founded 1555

Ripon Grammar School

Helping shape the future since 1555

1 December 2016

Dear Parent/Guardian,

DTP Booster and Men ACWY

Please find enclosed with this letter information regarding the DTP Booster and Men ACWY vaccination. The DTP booster helps protect your child against diphtheria, tetanus and polio. The Men ACWY vaccination helps protect against four types of meningococcal bacteria (groups A, C, W, and Y) and is replacing the routine meningococcal C vaccine.

These vaccinations will be delivered in school by the Childhood Immunisation Team to all third year students during the morning of Monday, 23rd January 2017.

Please read the information carefully and complete the consent form if you wish your child to receive these immunisations. The completed consent form should be returned to Mrs McIntyre in the medical room or Mrs Kinread at reception by **Wednesday, 14 December please.**

If you have a question regarding the DTP Booster or Men ACWY please contact the Childhood Immunisation Team directly; their telephone number is on the information letter.

Yours sincerely

Mrs S McIntyre
School Health Worker
