

Dear Head Teacher and Supporting Staff,

Td/iPV and Men ACWY Childhood Immunisation Programme 2023

We would like to visit **Ripon Grammar School** to deliver the Td/iPV (Diphtheria, Tetanus and Polio) vaccine and the Meningitis ACWY vaccine on:

Date: 2nd February 2023

Time: All day

The national programme is delivered to students in school year 9 between January and April 2023.

The School Age Immunisation Service has a new e-consent portal which is web based and has a dedicated area for your school. This is the same portal as you have used for the flu vaccine.

This new portal supports both school and the School Age Immunisation Service to work together to improve immunisation uptake. You will have access to the system in live time and be able to see who has completed consent and who needs to be brought to the immunisation session on the day we are in school. You will no longer receive a password protected document with the children's names who have given consent.

A separate letter to share with parents/ carers is attached.

We would like to thank you for working with us to ensure we continue to deliver our service effectively.

The School Age Immunisation Programme is a key part of offering protection to children. This is a vital programme of work for Children, Young People, and their Families.

Health Promotion materials to display in your schools to raise awareness can be ordered directly from [3-in-1 teenage booster overview - NHS \(www.nhs.uk\)](https://www.nhs.uk/3-in-1-teenage-booster-overview)

Yours Sincerely

Helen Harvey
Service Manager
School Age Immunisation
