The Martian – Astronomy Film Night for Year 10 students

Thursday, 14 July 2022

Dear Parents/Guardians

The Year 10 Astronomy group has spent part of this year learning about the Solar System. The film 'Martian' shows the pressures endured by an astronaut in what was supposed to be a 'routine mission'.

We will be showing The Martian, rated 12, on Thursday, 14 July in school. The film will start at approximately 4.15pm and students can be collected at 6.45pm.

Students are permitted to bring food and drink to consume while watching the film. They will also have the opportunity to order a pizza should they wish to; if so they should bring enough money to cover the cost of this. A menu with full prices can be found on the Zorro Ripon website, www.zorropizza.co.uk

Please give consent via email to green@ripongrammar.com

Yours sincerely

**Miss Green
Teacher of Astronomy**
